

IN THE ABSTRACT

Please substitute the following abstract. It has been amended to reduce the word count to a maximum of 150 words. A marked copy of the abstract is provided below.

A2

[(Amended)] A process for painting integrated automobile and commercial vehicle bodies or cabins which comprise plastic parts. The metal parts of the body/cabin are provided with an electrocoat and are integrated with the plastic parts. These plastic parts either already have an electrically conductive aqueous primer coat or an uncured electrically conductive aqueous primer film or are unpainted. Primers are applied to the metal and plastic parts. Atop the primers, a basecoat and a clearcoat are applied.
